# JORDAN SCHONEGG

Senior Product Designer • Visual & Interaction Design • Fintech & SaaS • AI-Enhanced Workflows
Greenwood, IN | 317-607-5300 | schonegg.jordan@gmail.com | jordanschonegg.com

## PROFESSIONAL SUMMARY

Senior Product Designer with 6+ years transforming complex fintech and SaaS problems into intuitive, polished digital experiences. Known for strong visual craft paired with sharp product thinking—equally comfortable setting design direction, owning end-to-end systems, and shipping pixel-perfect work under tight deadlines. Track record of launching platforms that drove 30% adoption growth, reducing engineering rework 25% through high-fidelity prototyping, and building scalable design systems adopted across multiple product lines. Fluent across the full product lifecycle: research, strategy, visual design, and cross-functional delivery.

## CORE COMPETENCIES

**Design & Visual Craft:** Figma, Sketch, Adobe Creative Suite, Typography, Grid Systems, Color Theory, Visual Storytelling, Motion Design, Interactive Prototyping, Component-Based Design Systems, Responsive & Mobile Design
**User Research:** Usability Testing, A/B Testing, User Interviews, Journey Mapping, Persona Development, Task Analysis, User Flows, Behavioral Analytics
**Prototyping & Development:** HTML/CSS, React (basic), AI-Enhanced Prototyping, Rapid Iteration, Frontend Collaboration, Design-to-Dev Handoff
**Methodology:** Design Thinking, Lean UX, Agile/Scrum, Design Sprints, Jobs-to-be-Done, Product Thinking, Behavior Change Design, OKR-Driven Design
**Domain Expertise:** Fintech, SaaS, Multi-Tenant Platforms, Accessibility (WCAG 2.1 AA), Compliance Design, AI Integration, Stakeholder Communication
**Tools:** Fullstory, Maze, UserTesting, Miro, Google Analytics, Hotjar, Jira, Confluence

## PROFESSIONAL EXPERIENCE

**Xpanse** Jan 2024 – Feb 2026
*Senior Product Designer* *Remote*

- Designed and shipped a consumer-facing multi-tenant fintech platform from concept to production in under **6 months**, driving **30%** increase in client adoption and opening a net-new enterprise revenue stream
- Conducted **50+ user** interviews and usability sessions, synthesizing findings into behavior-change design pivots that lifted satisfaction scores **20%** and measurably reduced churn risk
- Established unified visual identity across **3+** digital products, applying rigorous typography, color, and compositional standards that strengthened brand recognition and user trust
- Delivered high-fidelity, pixel-perfect prototypes with detailed design rationale, cutting engineering rework **25%** and accelerating sprint velocity across product and engineering teams
- Identified **2** high-value feature opportunities through competitive analysis, designing solutions that directly improved usability and drove measurable gains in customer retention
- Maintained a consistently high design bar across complex financial workflows—holding every deliverable to rigorous standards in typography, layout, motion, and WCAG AA accessibility

**Moder** Nov 2022 – Jan 2024
*UX/UI Designer* *Indiana*

- Overhauled core navigation architecture with strong visual and interaction design, reducing average task completion time **40%** and dramatically improving end-to-end user flow efficiency
- Built a comprehensive component-based design system with **50+** standardized elements, eliminating **50%** of redundant design work across the entire product suite
- Introduced kanban workflow methodology that streamlined project delivery, reduced design backlog **30%**, and maintained high output quality under tight timelines
- Operated as founding designer in a cross-functional product trio, translating high-level strategy into actionable prototypes and securing stakeholder buy-in through clear, persuasive design storytelling

## EDUCATION

**Milligan University** 2012
*Bachelor of Science, Pre-Med Biology* *Johnson City, TN*

**Kankakee Community College** 2010
*Associate of Science, Psychology* *Kankakee, IL*
